Join ABB and work in a team that is dedicated to creating a future where innovative digital technologies allow greater access to cleaner energy.

For our Marketing, Sales and Product Management team, understanding the full potential of our technology and the trends in our markets is highly rewarding. In addition, helping customers all over the world improve efficiency, save resources and reduce emissions gives our work a powerful sense of purpose.

You report to Commercial Operations Director. Part time work, limited until 30.06.2021.

Your responsibilities

- Support the local sales and marketing organization and customers in providing technically appropriate and technical descriptions of the applied products to support the proposal and order process
- Maintaining product information for online sales tools and configurators to improve eCommerce solutions

- Coordinating between product marketing and product management in order to optimize product information and technical details/description
- Supporting digital transformation and implementation of online tools and solutions for customers

Your background

- Bachelor Economics, Information technology, electrical engineering or similar
- Experience in data management and data handling, product information systems (PIM)
- Analytic competencies
- Structured mindset and working method
- Experience in data management / product information management
- Communication skills
- Service and customer orientation
- Team spirit
- Flexibility

More about us

Bring your very own sense of pride and purpose as you help us drive forward the Fourth Industrial Revolution – creating a sustainable future for our planet, and your career. Join ABB and harness the power of our diverse global network, as you collaborate with and learn from our world-class teams. Above all, challenge yourself every day. Let's write the future, together.

ABB is able to offer you an interesting role within a highly motivated team, together with open communication structures. On the basis of a personal, practice-oriented induction programme, you will be given the opportunity to acquire the confidence needed to work independently and self-reliantly within your assigned area. Even after the joining phase, ABB offers a wide range of individual career development opportunities and supports you in realising your career goals with targeted training measures. At ABB, as a certified family-friendly employer, you will find an attractive working environment in all phases of life - including policies for sabbaticals and home office, the ABB children's vacation camp and taking care of family members.

Interested in joining our team? We are looking forward to receiving your complete application through our online tool.
